Minister of Science and Higher
Education
Minister of the Environment
President of the Polish
Academy of Sciences
Rector of Poznan University of
Life Sciences
Rector of Warsaw University of
Life Sciences

Craig Lardner
Project Co-ordinator
The Quagga Project South Africa

Dear Craig Lardner,

Organizing committee

Ryszard Słomski
- President - Poznan
Zdzisław Czapla - Turek
Edward Dymnicki
- Vice president - Jastrzebiec
Alexander Dzieduszycki - Warsaw
Daniel Lipiński - Poznan
Jacek A. Modliński - Jastrzebiec
Marlena Szalata - Poznan
Ewa Winiarczyk-Ryba - Warsaw

on behalf of the Organizing Committee, the Institute of Genetics and Animal Breeding of the Polish Academy of Sciences (IGAB PAS) and the Polish Foundation for the Restoration of the Aurochs, we would like to welcome you to the First International Conference on the Restoration of Endangered and Extinct Animals. It is a great pleasure and honor for us that a conference will take place at the IGAB PAS in Jastrzebiec near Warsaw. The conference will be a unique event with individual sessions and themes designed to provide you with exceptional experience. It will gather a group of international experts in ancient molecular genetics, molecular biology and anatomy. There will be great opportunities to share ideas and interact with a global network as well as to review the latest results in recreation of endangered and extinct species from around the world.

Scientific committee

Mirosław S. Ryba
- President - Warsaw
Keith Campbell - Nottingham
Hieronim Frąckowiak - Poznan
Thomas Gilbert - Copenhagen
Claude Guindart - Nantes
Michael Hofreiter - York
Andrzej Kędziora - Poznan
Jędrzej Krupiński - Balice
Andrzej Kruszewicz - Warsaw
Pasqualino Loi - Terramo
Wanda Olech-Piasecka - Warsaw
Zdzisław Smorąg - Balice
Jan Śmiełowski - Poznan
Alexei Tikhonov - St. Petersburg
Cis van Vuure - Wageningen

We would be obliged if you could prepare a lecture and submit the title of your presentation which would also be the title of a paper reviewing the results of your Quagga Project South Africa. This, in our opinion, will make the Conference program attractive. We would like to begin the Conference on the first day about noon and finish it early afternoon on the third day. With coffee and meal breaks, we believe there will be enough time for approximately 30 lectures. We intend to publish all lectures in a book form. For invited speakers we would cover most of the expenses. We will do our best to ensure that you will enjoy your stay in Jastrzebiec and have pleasant, inspiring, attractive and motivating days. Because of its central geographical position in Europe, Warsaw can be easily reached and is also an extremely good starting point for pre- and post conference tours. We hope to see you in Warsaw at the First International Conference on the Restoration of Endangered and Extinct Animals and look forward to welcoming you at "Another Way to Maintain Biodiversity".

Organizing institutions

Institute of Genetics and
Animal Breeding of the Polish
Academy of Sciences
The Polish Foundation for
Restoration of the Aurochs
Department of Biochemistry
and Biotechnology of the Poznan
University of Life Sciences
